

Recommendation

A Sound Achievement (C) or above in Year 10 Indonesian. In the event that a student has Indonesian language ability but has not previously undertaken formal study, a diagnostic test must be conducted to determine a student's suitability to engage with the subject.

Rationale

Indonesian provides students with the opportunity to reflect on their understanding of the Indonesian language and the communities that use it, while also assisting in the effective negotiation of experiences and meaning across cultures and languages. Students participate in a range of interactions in which they exchange meaning, develop intercultural understanding and become active participants in understanding and constructing written, spoken and visual texts.

Students communicate with people from Indonesian-speaking communities to understand the purpose and nature of language and to gain understanding of linguistic structures. They acquire language in social and cultural settings and communicate across a range of contexts for a variety of purposes.

Students experience and evaluate a range of different text types; reorganise their thinking to accommodate other linguistic and intercultural knowledge and textual conventions; and create texts for a range of contexts, purposes and audiences.

Pathways

Indonesian is a General externally assessed subject suited to students who are interested in pathways that lead to tertiary studies, professions and further education and employment in many industries.
