

Year 10 Italian

Recommendation

Year 10 Italian is designed as a continuer course and a Sound Achievement (C) or above in Year 9 Italian is strongly recommended. In the event that a student has Italian Language ability but has not previously undertaken formal study, a diagnostic test must be conducted to determine a student's suitability to engage with the subject.

Achievement

Under the Australian Curriculum, the standards below are for years 9 and 10 Italian studies.

By the end of Year 10, students use a range of everyday language both orally and in writing to exchange information about their personal, social and local world and about broader issues of personal significance. They communicate thoughts and opinions; make comparisons and contrasts, and offer reasons for points of view, opinions and preferences. They express desires and plans for the future. They give presentations, and formulate and respond to a range of questions. They interpret information and attitudes in a range of informational and imaginative texts. They create written texts such as descriptions, narratives and recounts that convey experiences, ideas and emotions. They give detailed descriptions; describe and relate episodes in time and qualify statements. They use simple subject–verb–object constructions, extending or qualifying their message by adding complements or using modal verbs or comparatives. They produce bilingual texts, plan what needs to be communicated to particular audiences, and consider different perspectives.

Students use metalanguage to analyse and discuss features of language choice and use and cultural practice. They analyse texts, identifying features such as tone, sequences and relationships of events in time. They communicate their thoughts with awareness of different perspectives on issues or practices being discussed. They explain how Italian language use varies according to context, purpose and mode. They identify social and cultural practices of Italians in Italy and in the diaspora, including communities in Australia. They identify particular issues relating to translating between Italian and English, such as words with similar meanings and 'false friends', and identify certain concepts that cannot be translated readily from Italian to English and from English into Italian.

They reflect on ways in which language and culture together create meanings, and on ways in which their own linguistic and cultural assumptions come into play in using and learning Italian. They demonstrate understanding of the role of language and culture in shaping experience, and the ways in which their own experiences shape their identity.

Assessment Criteria

An overall level of achievement in this subject is determined by the teacher's on-balance judgment of the evidence presented in students' summative assessment across the following:

- **Communicating in target language** in a variety of contexts
- **Understanding** the culture of the target language and the systems, variations and roles of languages, in contexts

Delivery (mode, time requirements, lessons)

Lessons are delivered via an online platform. Students have access to scheduled lessons each week. Students are required to undertake independent study to complete tasks and assessment in accordance with the Work Rate Calendar.

Student Requirements

Computer, access to internet, email, printer, scanner, telephone, headset with microphone, exercise book, stationery, Italian-English bi-lingual dictionary.

Year 10 Italian
