QLD State Schools

& Schools of Distance Education

2017

Students enrolled at Queensland State schools and other schools of Distance Education can study a subject with the Cairns School of Distance Education (CSDE) provided that the student is unable to study the subject at their base school. This could be for a number of reasons.

- The school does not offer the subject.
- The student has transferred into the school and the school's timetable does not allow the student to continue studying the subject from their previous school.

General Resource Charge

The General Resource Charge for all state schools and other schools of Distance Education enrolments is \$100 : 1.0 FTE. This is an annual charge.

The General Resource Charge is not payable for those State School based students only studying a language with CSDE.

In addition, some subjects incur a subject charge as listed below.

Note: The base school is responsible for all payments. The base school is responsible for all non-returned/lost or damaged resources. Individual student payments will not be accepted.

Subject Charges/General Resource Charge Refunds

- Please choose subjects carefully as there are no refunds on Subject Charges or the General Resource Charge.
- Students who cancel their enrolment in writing to the CSDE within 2 weeks of enrolment will not be charged Subject Charges or the General Resource Charge.
